EXPERIENCE

Software Developer

Jan 2025 - Present

Bright Mind Enrichment and Schooling | CA, USA

- Built interactive web applications using React.js, TypeScript, and modern UI libraries like MUI and Tailwind CSS, enhancing user experience and performance. Developed reusable and modular components, optimizing front-end code structure, and improving maintainability.
- Implemented API integration using RESTful APIs and GraphQL, ensuring efficient data fetching and smooth client server communication.
- Implemented reusable UI components with React Hooks (useState, useEffect), and state management techniques to build modular and maintainable applications.

Software Engineer

July 2021 - Dec 2022

OFNIIINFO Software Solution – Full Stack Developer | Surat, India

- Developed and optimized mobile applications using React Native and React Redux, ensuring seamless user experiences while improving app performance, reducing API response times by 30%, and increasing active users by 15%.
- Integrated secure APIs and enhanced server-side functionality with NodeJS and scalability.
- Collaborated with cross-functional teams to rebuild UI components, implement Jest testing for reliability, and boost app loading times by 25%, contributing to a 20% increase in user retention.

Software Engineer - Intern

July 2020 - June 2021

Rejoicehub Solution | Surat, India

- Engineered and deployed dynamic, responsive web applications using ReactJS, crafting reusable UI components and implementing RESTful API integrations to optimize user experiences and streamline workflows.
- Built a single-page responsive website from scratch using HTML, CSS, JavaScript, and Bootstrap, showcasing proficiency in core front-end technologies and modern responsive design principles.

PROJECT

TRINKERR – LEARNING SOCIAL APP

Feb 2022 - Dec 2022

- Developed and enhanced key features for the Trinkerr social trading app using React Native and React Redux, focusing on user-friendly functionalities, performance optimization, and a smooth, error-free experience through thorough testing and debugging.
- Collaborated with cross-functional teams, including designers and backend developers, to deliver high-quality, innovative solutions, while staying updated on industry trends to improve app usability, engagement, and user retention.

FOR PAY – GO DIGITAL

July 2021 - Jan 2022

- Developed the Flight Booking functionality for the "For Pay – Go Digital" mobile app using React Native for Android and iOS, enabling users to search, filter, and book tickets with real-time API integration and an intuitive UI.
- This contributed to building a local online shopping experience, allowing users to buy groceries and services from nearby vendors, handling bug fixes, utilizing npm packages, and collaborated via Bitbucket for version control.

EDUCATION

New Jersey Institute of Technology

Jan 2023 - Dec 2024

Master of Science in Computer Sciences | Newark, NJ

- Coursework:** Data Structures and Algorithms, Software Project Management, Web System Development, Data Mining, Cloud Computing, Machine Learning
- GPA:** 3.5/4.0

Gujarat Technological University

July 2017 - June 2021

Bachelor of Engineering in Computer Engineering | Gujarat, India

- Coursework:** Design and Analysis of Algorithms, Operating Systems, Database Management system Design, Compiler Design, Object Oriented Programming, Computer Architecture, Computer Networks, Software Security
- GPA:** 3.9/4.0

SKILLS

Programming:

C | C++ | Java | JavaScript | Python | Ruby

Web Technologies:

NextJS | ReactJS | WebSocketAPI | AngularJS | Tailwind CSS | ExpressJS | NodeJS | HTML | CSS | Spring Boot | React Native

Databases:

Redis | Neo4J | AWS RDS | DynamoDB | HBase | S3 | Hive | Microsoft SQL Server | MongoDB

UI/UX:

Adobe Illustrator | Figma | Sketch | Adobe XD

Testing:

Postman | Unit | Widget | Integration | Load | Canary | A/B

Other:

AWS | Git | JIRA | Jenkins | Docker | Kubernetes | Zabbix | Ansible | OS | Storage Systems
